WARNING.

The legal voters of the town of Enosburg are hereby warned to meet at Opera House, Enosburg Falls, on Tuesday, March 2nd, 1909 at 10:00 o'clock A. M. to act on the following business, viz:

Art I—To elect a moderator for the year ensuing.

Art II—To elect a town clerk for the year ensuing.

Art III—Shall licenses be granted for the sale of intoxicating liquor in this town.

Art IV—To receive and act on the reports of the town officers.

Art V—To elect the remaining town officers for the ensuing year as required by law.

Art. VI—To see if the town will appropriate a certain sum of money for Memorial Day expenses.

Art VII—To see if the town will vote a tax on the Grand List of the town for the year ensuing to provide for the indebtedness and estimated expenses covering the several amounts and rates per cent. recommended by the auditors as shown in their report.

Art VIII—To see what sum the town will appropriate for the maintenance of a free public library.

Art IX—To see if the town will vote an extra highway tax for winter roads, and direct how it shall be expended.

Art X—To see if the town will vote to instruct the road commissioner to draw an order on the highway fund set apart for winter work in favor of the general fund to an amount equal to that used this present winter in breaking roads.

Art XI—To see if the town will vote to appropriate a sum of money for permanent improvements of highways in order to secure State Aid, and if so, how much.

Eighteen bridges have been repaired or rebuilt, three of them provided with steel stringers. There are others that will need attention in the spring.

The Henry Benoit case so-called was settled before the time came for trial.

The new safe came in due time and was set in place at the town clerks office on a stone and cement foundation set seven feet in the ground. The old safe is still at the town clerks office subject to the order of the Cary Safe Co.

Property on hand: 2¼ m. shingles, about 500 feet plank and boards, 1 harrow, 2 road machines, 2 snow rollers, 5 snow plows, 5 road scrapers, 1 steel roller, 1 bar, 1 large chain, 3 hammers, 8 drills, 2 derricks, 1 plow, 2 steel wedges, 1 stone lifter, 1 stone ladder, 3 steel brushes, 1 safe, 1 town seal.

There has been expended in moving and repairing the school house in district No. 16, \$300.00. The right for the building and right to a spring for school purposes \$50.00.

The town saves \$45.00 a term in transportation in district No 16 or \$135.00 a year.

The town saves \$6.00 a year in providing drinking water for the school children in district No. 16.

Should the Grand List of 1909 show no particular change from present figures, a tax of 55 cents on a dollar will provide for the above estimates which we hereby recommend.

REPORT OF SUPERINTENDENT OF SCHOOLS.

In accordance with the law, I respectfully submit the following partial report:

Eleven schools have been maintained throughout the year. The attendance has been very small in the Austin, Woodward, and Bordoville schools. The average attendance of those enrolled has been good in most instances, but there is need of a more rigid enforcement of the truant laws in a few cases. Twenty-one teachers have been employed during the year, and but one of these, to my knowledge, has received a permit. A few of these were inexperienced while others have taught many terms. I regard the work, as far as it has come under my observation, successful as a whole. There has been a willingness on the part of the teachers to improve and develop the schools along rational lines. The directors have done their part by giving their support in the work, and providing better conditions in many of the schools. A few of the buildings, however, need better black-boards and furnishings. This, I believe, will receive attention in the near future.

The schools have been visited by the superintendent once, and in some instances twice, every three weeks during the fall and winter terms. Books have been collected and distributed to secure greater efficiency with what we have. Teachers have been directed and encouraged in their work. Circular letters have been issued from time to time to take the place of teachers and secure equivalent results with less inconvenience to the teachers. Special attention has been placed on reading and Vermont geography with a view to make the work more intensive by an improvement in method. A few needed introductions have been made in text books. Through the influence of the W. C. T. U. a primary guide book in physiology has been

introduced. The eye and ear test has shown, as far as it is reliable, the usual large number of physical deficiencies.

I would respectfully submit for your consideration the following plans for the development of the schools.

An expenditure sufficient to make possible necessary changes in text books and purchase of equipment as the needs of the schools become evident.

That the teachers be hired for the year, as far as possible, and kept in the same school, and the promotion of the most efficient teachers to the larger schools with an increase in salary sufficient to retain them.

That the small schools within reasonable distance from another school be transported in good conveyances with trusty drivers, and that the school year, in those schools to which they are carried be increased slightly to recompense those who have the inconvenience of transportation.

I cannot assure a saving by carrying out this policy, but think, when the saving in running expenses and the rebate from the state is compared with the increased expense in other lines, that the difference will be slight. We are trying to make the schools better, the growing generation is worthy of good educational advantages, and needs the best we can give them. In this we should be agreed and work together to secure the best results.

E. J. BEST,
Superintendent.

TOWN AGENT'S REPORT.

The Benoit damage case is the only case I have had to do with. It emphasises first of all the importance of keeping bridges and sluices in safe condition for public travel. Second, that a speedy settlement of just claims is usually made with the least expense. The real damage suffered in the judgment of the old board of selectmen and your town agent, after careful investigation was very slight, yet five hundred dollars was demanded. Third to avoid paying excessive damage in too many cases it is better to try a case in court.

Respectfully submitted,

G. S. FASSETT,
Town Agent.

Report of C. H. Abell as Poor House Director.

At the Poor House the average number of inmates for the year has been 44, and the average number of children in the

house for the year ending Jan. 5th has been about 9 being cared for at an expense of \$1.25 per week each.

The number of inmates from the different towns at present are as follows:

Berkshire	3
Enosburg	3
Fairfield	3
Franklin	2
Highgate	5
Sheldon	6
St. Albans City.....	14
St. Albans Town.....	2
Swanton	7
Total	45

There has been eight deaths during the past year, as follows:

Berkshire, Robert Cook; Enosburg, Maggie Erwin, Fayette Titus; St. Albans City, Wm. Powell, W. H. Brown, Amanda Drew; Fairfield, Minerva Scofield; Franklin, Celisto Laplant.

The cattle underwent a test for tuberculosis about Nov. 1st with the result of 32 head being condemned, leaving only eight head free from the disease. The young heifers and cows which were raised on the farm being the worst victims. Others have been purchased since the thorough cleaning out of every thing in the stables, floors, mangers and stancious, the ceilings being thoroughly disinfected, everything has been replaced with cement floors and mangers with patent swing stancious.

The home buildings have been improved in appearance, and value, by being repainted.

The total expense for the year ending Jan. 5, is \$12,462.05 for which a tax of 8 per cent. on the Grand List of the Ass'n. is assured which is as follows:

	Grand List.	Assessment.
Berkshire	\$ 7,655.06	\$ 609.20
Enosburg	11,380.30	910.42
Fairfield	8,214.90	657.19

PROPERTY ON HAND.

Two m. shingles, 1 harrow, 2 road machines, 2 snow rollers, 5 snow plows, 5 road scrapers, 1 steel roller, 1 bar, 1 large chain, 3 hammers, 8 drills, 2 derricks, 1 plow, 2 steel wedges, 1 stone lifter, 1 stone ladder, 3 steel brushes, 1 safe, 1 town seal.

TOWN BONDS AND COUPONS.

Paid cancelled and burned.

The interest coupons and bonds paid during the last current year as shown by Treasurer's report have been cancelled, and we hereby certify that the Treasurer burned in our presence, Jan. 29th, 1910, all such bonds and coupons, authorized by vote of town meeting, March, 1900. And it is gratifying to add that this finishes paying the towns railroad bonds, the two last of which matured in 1909. Provision was made one year ago for, but one, hence the town's floating indebtedness this year is thereby increased \$2,000.00.

REPORT OF SUPERINTENDENT OF SCHOOLS.

Town of Enosburg.

We respectfully submit this, our annual report, to the officers and voters of the town of Enosburg.

Eleven schools have been maintained during the year. One, at Sand Hill, has been closed and one, on Sheldon Hill, opened. About one hundred and seventy-five different pupils of the two hundred between the ages of five and sixteen found resident according to the last school census have been generally regular in attendance.

We appreciate the spirit manifested by the school directors in giving their support to a progressive educational policy. They have improved the conditions for maintaining good schools to a marked degree. The grounds of three schools have been graded and fenced in a substantial and attractive manner. A few of the buildings have been repainted and some of the foundation walls re-laid. One building has been re-seated and the seatings of two others have been changed to secure better hygienic conditions for the pupils. Chairs and tables for the primary pupils have been placed in three of the schools where the needs seemed greatest. The directors have given their support to improvement in the text books and materials for the use of pupil and teacher alike.

Fifteen teachers have been employed during the past year for at least one term and six for the entire year. Two teachers have held first grade certificates, eleven second grade certificates, two third grade and no permits have been issued. No normal school graduates have been employed two have attended at regular or summer session of a normal. Six are graduates of the training course formerly given at the Enosburg Falls High School and two of similar

preparation at Brigham Academy. (The effects of dropping this course by statute law are obvious.)

From our observation in the schools we have noted an improvement in the interest of both pupil and teacher in their work. There has been a willingness on the part of most of the teachers to purchase books on teaching for self-improvement. Nearly all have worked hard to make their schools better and are worthy of commendation and the largest salary the town can afford for their efforts.

The teachers have been aided by advise, by the introduction of modern text-books, by recommended books for self-improvement, and a day for visiting other schools.

The advice given has grown out of the needs observed in our usual visit, once every three weeks depending, in part, upon the strength of the teacher. These directions have been given in the form of personal interview, illustrative teaching, or circular letters.

The text-books introduced have been in elementary reading and supplemental material for intermediate pupils. The arithmetics have been partially replaced by a new series by the same author. Some other slight changes have been made to meet the needs of individual schools.

Books recommended for self-improvement have been those which give in detail those things needed by teachers with a limited preparation. The field covered has been along the line of primary number, reading, drawing, nature study, and industrial education.

On visiting days it has been our purpose to be present at the graded schools of Enosburg Falls and direct the observation to secure the greatest improvement in the teacher. This work has taken the place of teachers' meetings, and, we believe, with as lasting results.

The teachers and pupils have been encouraged to do more along the line of agricultural education through

nature study and direction in hot-bed culture. The exhibition of the work of the pupils at the town school picnic revealed the interest aroused and the results attained with but a small effort.

The pupils have been encouraged to read good books, and to make use of the public library. One traveling library has been secured from the state and placed in the East Enosburg school during the present term. We believe the results are such as to warrant an extension of this work next year.

We would respectfully recommend that the people support the School Board in maintaining their present progressive policy, that the buildings needing improvements be repaired and made more healthful and attractive both without and within, that the Woodward school, in particular, be re-seated and the seats of the Samsonville school be re-arranged.

We would advise a continuation in improvements started in text-books, maps, black-boards, and books for reference and direction, or those things which lie at the very heart of school efficiency.

We believe that more can be done along industrial lines, if we can secure or train teachers to carry out the work. With careful direction, we believe, it is possible and advisable to do something in manual training. It can be tried in one school where conditions seem best suited for the work. This school can be used as a model school for the development of other teachers. We realize that this is a radical departure, but it seems an experiment worthy of trial.

More plans may be carried out during the summer for the encouragement and instruction of the pupils in agriculture. We hope for the co-operation of the grange in this matter.

Greater results may be secured in creating a desire for good literature, if we might have the aid of the public library. It seems practicable to give to the teachers of the remote district schools certain privileges in regard to the length of time books might be retained and the number which might be drawn at the same time. The superintendent is willing to aid in the transportation of books and comply with such regulations as the library trustees might make.

The abstracts from the laws of the state, herewith given, will readily show the advantages of raising such a tax as will secure the largest state aid. The amount of money paid for tuitions and transportation by the town is rather large and will secure a proportionately large reimbursement. The town has followed out this policy in road building and the same policy seems practicable in school matters.

The twenty thousand dollars set aside for the aid of towns furnishing transportation is distributed on the following basis. Those towns which have raised by taxation and expended fifty per cent. or more for school purposes, excluding state school tax and money for new school houses, shall receive one share per dollar expended for transportation; those raising sixty per cent. or more, one and one-half shares; and towns raising seventy per cent. or more, two shares.

The state treasurer shall pay to the several towns which have paid tuition at high schools as follows not exceeding twenty-four dollars per pupil per school year; to towns raising forty per cent. or more, one fourth of the money so expended; to towns raising fifty per cent. or more, one-half; to towns raising sixty per cent. or more, three-fourths; and to towns raising seventy per cent. a sum equal to the entire amount paid.

In the time which is before us we hope for greater progress in educational work. That we may have this we seek harmony and the co-operation of all concerned. The work of the schools and their development is worthy of our most careful attention and, we believe, is receiving more of the attention and interest of the public than ever before.

Respectfully submitted,

E. J. BEST,

Superintendent.

 Total expense town and association, \$1,259.43

The expense for supporting the poor outside the poor house is much larger than usual, owing to an unusual amount of sickness among those that the law compels us to care for who are out of town. The Truant law has also added to the expense.

Respectfully submitted,

C. H. ABELL,

Overseer of Poor and Poor House Director.

REPORT OF C. H. ABELL AS POOR HOUSE DIRECTOR.

At the Poor House Jan. 4th, there were 40 inmates. The average number for the year was $49\frac{3}{4}$, from the several towns as follows: Enosburg 2, Berkshire 4, Fairfield 3, Franklin 2, Highgate 6, Sheldon 4, St. Albans City 18, St. Albans Town 1 and Swanton 9.

The present number of children in the Homes is 13. Of this number 10 are in St. Joseph's Orphanage, Burlington and 3 in the Warner Home, St. Albans.

Nine deaths are reported during the year, one being a charge from this town, Mrs. Maria Beaudreau, age 71.

The farm stock consists of 29 cows, 6 heifers, 1 bull, 4 horses and 19 hogs. It is expected there is sufficient coarse fodder, ensilage, etc., to feed them through the winter.

We have engaged Mr. and Mrs. M. A. Regan to act as manager and matron for the year ending Nov. 1st, 1910.

The directors at their regular meeting, Jan. 4th, 1910, voted to raise 8 per cent. on the Grand List of the several towns, which is as follows: •

	Grand List.	Assessment.
Berkshire,	\$ 7,752.75	\$ 620.22
Enosburg,	11,831.99	946.56
Fairfield,	8,205.28	656.42
Franklin,	6,688.10	535.05
Highgate,	7,523.43	601.87
Sheldon,	7,360.44	588.84
St. Albans City,	38,609.30	3,088.73
St. Albans Town,	7,716.80	617.34
Swanton,	15,347.07	1,227.77
	\$111,035.16	\$8,882.80

The indebtedness has been decreased some over \$2,000 from what it was one year ago.

The next regular meeting will be held at the association's office at Sheldon Poor House on Tuesday, April 5th, 1910.

The auditors would here offer an explanation which might have been done consistently by the selectmen themselves.

The "floating indebtedness" as shown above, less the usual overseer's last order, and the funds in hands of Treasurer, shows a balance of \$2,903.73. This amount is nearly all accounted for by the following items for which no provision was made in the tax raised, namely:

Permanent road fund, provided for \$300.00,		
voted \$500.00,		\$ 200.00
New road, No. Enosburg, provided \$300.00,
